MORN ABOUT THE HAREM SKIRT.
(This may be sung to the tune of "Casey Jones," or not sung at all, as the reader sees fit.)

Come on, you rounders, if you want to flirt,
Follow the girl with the harem skirt;

Aged Woman Killed

Being hard of hearing and unaware of the approach of the rapidly moving train, Mrs. William Dawson, aged resident of Garrison, was struck and instantly killed Tuesday morning in front of the C. and O. Depot at that place by West-bound train No. 1. Her body was cut in twain and was hurled high into the air, and was a horrible sight to the half dozen eye witnesses who saw the distressing accident.

NATURAL GAS

Consumption During 1910 Aggregated Over 8,000,000,000 Cubic Feet—Columbia Directors Meet

Cincinnati Enquirer.

More than 8,000,000,000 cubic feet of natural gas was consumed in Cincinnati and environs in the last year, says the annual report of President A. S. White of the Columbia Gas and Electric Company.

During the last six months of 1910 the consumption was 4,310,869,000 cubic feet, as against 1,932,534,000 cubic feet for the corresponding six months of 1909, showing the increasing tendency to use gas for fuel, as well as lighting purposes. The greatest consumption was in December, when over 1,000,000,000 cubic feet were required.

The company's receipts during 1910 aggregated \$2,310,641, and the year's surplus is \$143,007, this bringing the total surplus of the Company up to \$1,355,177. During the year the Columbia paid off the indebtedness of \$412,733 of the Cleveland Gas Light and Coke Company and the People's Gas Light Company, and also the floating indebtedness of \$700,000 involved in the development of its West Virginia gas fields, making a total of \$1,118,733. It also provided \$1,800,000 for the sinking fund, to be used in retiring \$2,000,000 of bonds in the next few months.

The assets of the Company are now \$68,635,227.

CONSUMPTIVE SYMPTOMS

Removed by Vinol—A Genuine Case Reported from Newark, O.

Newark, Ohio—"About two years ago my wife was in very poor health. For three months she suffered from a bad cough which had settled on her lungs—she was run-down, reduced in flesh and had all the symptoms of consumption. She began taking Vinol, and before the first bottle was gone she was improved in health—before she had finished her third bottle, her cough was gone and she was well.

"We cannot say too much in praise of Vinol.—N. L. Stebleton." (We guarantee this testimonial to be genuine.)

In pulmonary troubles Vinol shows its power for good. It goes to the seat of trouble, heals the inflamed surfaces and cures the cause of the cough.

In hundreds of cases where cod liver oil and emulsions have failed, Vinol has succeeded because it contains all the curative value they do—but its good work is not retarded by useless grease and oil.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. John C. Peacor, Druggist, Maysville, Ky.

ON THE MARCH

The old Anglo Saxons called the month upon which we enter "Hlyd Monath," which, by interpretation, means storm month. Under the old Roman way of reckoning this was the first month of the year, and continued to be so in England until 1752. There are just two things about March which may be unfailingly predicted. The first is bad weather from the Signal Service and second is big bargains from us. We propose to let the winds do the blowing; we will do the selling.

Taken Suddenly Ill
Mr. Henry Glenn, a member of Street Commissioner Smith's force, was taken suddenly ill yesterday morning while working in Second street extension and dropped to the ground in a dead faint. Dr. Brand was summoned, and after receiving medical attention he was conveyed in a buggy to his home in the Sixth Ward. He had previously been ill with the grip and had not fully recovered from its ill effects.

Danderine
Grows Hair
and we can
PROVE IT!

The Great DANDERINE Never Fails to Produce the Desired Results.

It enlivens and invigorates the hair glands and tissues of the scalp, resulting in a continuous and increasing growth of the hair.

Letters of praise are continually coming in from nearly all parts of the country stating that Danderine has renewed the growth of hair in cases that were considered absolutely hopeless.

A lady from Brooklyn writes: "After a short trial my hair stopped falling, and I now have a lovely head of hair, very heavy and over one and a quarter yards long."

Danderine stimulates the scalp, makes it healthy and keeps it so. It is the greatest scalp invigorator known. It is a wholesome medicine for both the hair and scalp. Even a small bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.

Now on sale at every drug and toilet store in the land; 3 sizes 25c, 50c and \$1.00.

A Far Fetched Demand
One of the three missing captors of Jefferson Davis has turned up in Milwaukee and has filed claim for \$293 as his share of \$100,000 appropriated after the war as a reward to the men who caught the Confederate President.

CAN YOU BEAT IT?

A Stream of Water Thrown 170 Feet High—That's What Maysville's Superb Fire Department Did Yesterday

Chief Hite had his crew of fire fighters out yesterday afternoon for practice and drill, and the boys treated a large crowd of spectators to a grand sight and one well worth looking at. They unlimbered in front of the First Presbyterian Church in West Third street and proceeded to do business with their new-fangled hose and nozzle apparatus.

The first demonstration was made with a nozzle throwing a 2-inch stream at the rate of 1,800 gallons a minute. The climax came, however, when, with a 1½-inch nozzle, a stream of water was thrown twenty or twenty-five feet above the Church steeple, at least 170 feet high.

This city, by virtue of its improvements in fire-fighting facilities, will, in all probability, receive a reduction in insurance premiums equal to the original cost of installing the "Kinney Mac" and other accessories. In fact, it is said Maysville is in a class far ahead of cities of third grade in the State, so far as insurance rates are concerned.

The next meeting of State insurance experts will likely be held in this city, as its improvements are such as to point the way for other cities to follow.

The Insurance Rating Commissioners from Louisville sent in an alarm last night at 11 o'clock from the Tuck-Bo Warehouse at the head of Union street and Forest avenue in order to time the Fire Department in getting to a fire.

Notwithstanding the boys were tucked away in their little beds in the arms of Morpheus, it was just four minutes from the time the alarm was sent in until the boys were on the ground ready for action, and the distance is over one mile.

Colonel George Bain, in one of his celebrated lectures, says: "If you start wrong, you end wrong; if you start right, you end right." Start right this spring by buying your wearing apparel of Maysville's Foremost Clothiers. First, because they are guaranteed to give absolute satisfaction or your money back; because they are right in style; because they are right in price; because they are new. If anything should prove wrong we will gladly make it right. Isn't this all right? N. B.—The Overcoats are being reduced rapidly in quantity, but not in quality. The prices have been reduced for many days. Those who have been dilatory in coming in to see them at these special prices will be given another opportunity to do so. Remember the prices—\$10 Overcoats \$7.50; \$12.50 Overcoats \$9.75; \$15 Overcoats \$11.25; \$18 Overcoats \$13.50; \$20 Overcoats \$15.00; \$25 Overcoats \$18.75.

Libel Case Ends

At Louisville, the Grand Jury Monday dismissed the case against J. Paul Daley, "white slave" lecturer, who had been held over from the Police Court, after a hearing on the charge of criminal libel. The case grew out of the publication in The Louisville Herald in January of what purported to be an excerpt from a talk by Daley, in which he was quoted as saying that the Whallen brothers owned a large percentage of the disorderly houses in Louisville.

20% UNDERFEED INVESTMENT

Most heating systems are an actual drag on the domestic treasury. If you want to enjoy actual every-winter dividends, tear out your old glutinous coal-eater, with its uneven heat and hard-to-satisfy appetite for fuel. Put in a

PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheapest slack in the Underfeed yields as much clean, even heat as most expensive grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to

SAVE 1/2 TO 3/4 OF COAL BILLS.

This saving represents a 20% dividend on the investment for this modern system of heating. Figure it out. It won't take long to get your money back. The Underfeed adds to the selling or renting value of any building.

Write today for free booklet on Underfeed Warm Air, Steam and Hot Water Heating Systems. Our representative will be glad to call any time and make you a detailed proposition.
